Andrii Bertash

1C/BAF SOFTWARE DEVELOPMENT ENGINEER

Profile

I am a software engineer with more than 7 years of commercial experience. I have organizational and problem-solving skills with a high level of self-motivation for work. I easily and quickly learn new technologies, frameworks, tools, etc.

I am an adaptable person. I have worked with different customers. They had disparate requirements and expectations of me. I have been able to adjust my possibilities and skills to meet each of their needs.

I am good at producing quality work in a team environment. In addition, I am very comfortable with public speaking.

Seeking to apply my experience and skills to benefit your company as a 1C/BAF developer. I want to become part of a great team with experienced engineers. The opportunity of career growth in a technical direction is mandatory.
